

Guidelines for the Missouri WIC Cereal Application

The Missouri WIC program will be implementing new cereal specifications as indicated in the Federal Register: December 6, 2007 (Volume 72, Number 234) Table 4: Minimum Requirements and Specifications for Supplemental Foods (Page 68991). **At least half of the cereals on the Missouri WIC Approved Food List must be cereals that meet new specifications (#6 - #13) listed in table below.**

If you are submitting a cereal for consideration for Category II, you must complete the Category II section of the Cereal Application form. If you are submitting a cereal for consideration for Category I, please complete only the Category I section of the form.

Missouri WIC Cereal Specifications	
Category I	Category II
<ol style="list-style-type: none"> 1. Contains at least 28 milligrams of iron per 100 grams of dry cereal. 2. Contains 21.2 grams or less of sucrose and other sugars per 100 grams of dry cereal (6.0 grams per ounce). 3. No aspartame or other non-nutritive sweeteners. 4. Nationally or non-nationally advertised brands (store brands). 	<ol style="list-style-type: none"> 1. Contains at least 28 milligrams of iron per 100 grams of dry cereal. 2. Contains 21.2 grams or less of sucrose and other sugars per 100 grams of dry cereal (6.0 grams per ounce). 3. No aspartame or other non-nutritive sweeteners. 4. Nationally or non-nationally advertised brands (store brands).
<u>New Specifications Not Required</u>	<u>Required New Specifications</u> Whole grain as the primary ingredient by weight AND meet labeling requirements for making a health claim, e.g. "whole grain food with moderate fat content"
	<ol style="list-style-type: none"> 6. Contains a minimum of 51% whole grains using dietary fiber as the indicator. 7. Contains at least 5.6 gm of fiber per 100 grams of dry cereal. 8. Total Fat --- less than or equal to 6.5 grams per RACC* 9. Saturated Fat --- less than or equal to 1 gram per RACC 10. Trans Fatty Acids less than or equal to 0.5 grams per RACC 11. Cholesterol less than or equal to 20 milligrams per RACC 12. Quantitative information on trans fat must be indicated on the label 13. Must have whole grain as primary ingredient by weight

* Reference Amounts Customarily Consumed per Eating Occasion
